

Memorial Service Was Great Success

Held Last Sunday Under The Auspices of Local Legion

This year's Memorial Service, held under the auspices of the local Legion, will go down in history as one of the best and most largely attended that they have had for several years.

Promptly at the hour appointed a large procession of returned men, local militia, Ladies' Auxiliary and civilians formed on the street in front of the Legion quarters and, headed by pipes Hosie and Williams, marched to the cemetery where a most impressive service was held.

Rev. R. Erskine Pugh conducted the first part of the service, and after prayer and the singing of a hymn he read two portions of scripture, one from the 24th Psalm and the other from the 7th chapter of Revelations.

After singing another hymn Rev. F. J. Cox, of Medicine Hat, addressed the gathering. Taking as his text the fourth verse of the first epistle of John: "And his is the victory that overcometh the world, even our faith," he said the church today is fighting a form of paganism and just as worldliness crucified Christ so was it today. He expressed great surprise of those speaking and thinking of young people today and said there was a great responsibility on the shoulders of all soldiers of Jesus Christ to fight against all forms of worldliness, sin and the devil. Mr. Cox spoke very feelingly of the necessity of all rendering some form of spiritual service and spoke of the great influence the men of today could and should have on the rising generation.

After the ringing of "Lead Kindly Light," Rev. Malcolm Stewart, himself a returned man, gave an address. He took his text from the 4th verse of the scripture read by Mr. Pugh: "These are they which came out of great tribulations," and then asked the question: why? After reminding his hearers that all were gathered together to pay respect to those who had made the supreme sacrifice in the Great War Mr. Stewart again asked the question: why? In answering the question he said they had passed through great tribulations in order that we might enjoy love, friendship and peace. The speaker said he sometimes felt as though the comrades who had passed on would think that we were letting them down because we were not reaping the full benefit from their sacrifices and that it was our own fault if we were not. Mr. Stewart admonished his hearers to use their talents and influence in an effort to make it possible for the world to get on up to such strife and turmoil as caused by the great war. This by those whose sacrifices we are commemorating.

After singing the National Anthem Mr. Stewart pronounced the benediction and then beautiful wreaths, furnished by Mrs. Millard, were placed on the graves of the following departed comrades: C. E. Oldland, A. McFarlane, A. Lamont, and J. Ritten.

After Hosie then played the

First Grain Loaded At Port Churchill

Facilities Best In The World For Handling Grain

Ships were loaded with grain at Churchill last Tuesday for the first shipment to leave the west via the Hudson's Bay route.

The ship loading tests followed on the heels of completion of a successful trial of grain car unloading equipment. Without an hitch 330 cars, dumped by a powerful mechanism which lifts each car and twists it about until its entire contents have been removed. The machinery installed almost 1,000 miles farther north than any similar equipment, ranks with the fastest grain handling plant in the world.

Here and There

One thousand men will be employed over \$500,000 expended in highway work in Cape Breton and Richmond counties, Nova Scotia, during the coming autumn.

Miss Pauline Garon, Montreal motion picture queen, formerly of the Canadian Pacific Theatre, recently made pictures in England and

Salmon taken in 1930 from British Columbia waters totaled close to 37,000,000 weighing more than 216,000,000 pounds. Number of fish was 5,000,000 more than in the biggest previous salmon catch year of 1926.

The New Brunswick Government is preparing to face the problem of unemployment at a practical basis this winter and has instituted a "recreation" system through city and town clerks, who will gather full data as to out-of-work and their families.

Sir Lionel Pletcher, captain of the British rifle team, which competed against Canadian shots at Toronto and Ottawa, following the historic Bitter meeting was warm in praise of Connaught Rangers, on his return to England. It is hoped that another Old Country team will compete in Canada next year.

Queen Helena of Roumania and her sister, Princess Irene of Greece, gave British railroad officials a shock recently by travelling from London to Scotland, third class. The Queen mildly declared that she was very comfortable and did not want people to know she was travelling.

Lament: "Lovers of the Forest" after which the procession was reformed and marched back to the Legion headquarters, under command of Capt. A. G. Osgood.

On the whole the service was one of the most impressive and successful the Legion has had.

Officers of the Legion wish to extend their hearty thanks to the three ministers and all who helped make the service the success it was.

SCHOOL NEWS

All members of the French class have organized a club for the purpose of promoting conversational French. No one is allowed to speak English while the club is in session. Elizabeth Pallie was elected secretary.

The cadets have started their year's training with an enrollment of over sixty. Major Miller, district cadet inspector, is at present on a tour of Europe, but has promised to assist with the organization of a Redcliff Cadet band, upon his return to Canada in October.

The Literary Society executive, composed of Leonard Larson, Irene Buchholz, Jean Moore and Jean Paterson, has been planning an ambitious program for the year. The co-operation of the Department of Extension of the University of Alberta has been sought, and some outside speakers will address the members on several occasions.

This week's howlers: The League of Nations is a baseball league. It was formed because they thought if the nations played ball they would like each other better and not want to fight. Methodists are people who go to church sometimes. They have a certain method of praying more prayers than people and longer, but not so good.

Mrs. Joe Tester, who has been in the hospital for several weeks, was sufficiently recovered to return home last week end. Although much improved, Mrs. Tester still has a plaster cast around her body, but is getting stronger daily.

Here and There

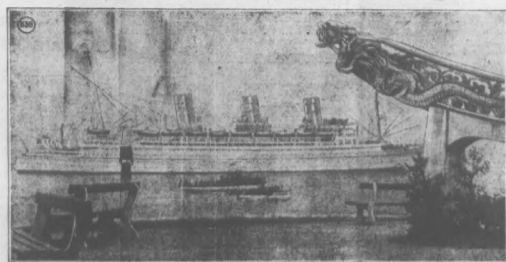

White Leghorns have "No. 1" eggs 68¢ per Port Kells, B.C. laid 50¢ in 545 days, qualifying her as champion egg layer. The egg weighed 52 pounds, had ten times her own weight.

In the fiscal year in Nova Scotia there were 321 companies incorporated with total capitalization of \$2,367,000, an increase of 12 new companies over the previous year.

Mr. Hon. R. B. Bennett, Prime Minister of Canada, and a graduate of Dalhousie University of 1892, was recently presented with a letter-bound script conveying recognition and regard of his late classmates of the same year.

Theodore H. Kipp, chairman of the Industrial Development Board of Manitoba, reports that since the inception of the Board, Manitoba's industrial payroll has been increased from \$18,500,000 to \$25,000,000.

New Queen Salutes Former Sovereign

When the new Empress of Japan, latest pride of the Canadian Pacific steamship fleet and holder of the Blue Pacific speed record, sailed from Vancouver harbor for the Far East recently she was met in homage by the dragon-carved prow of the old Empress of Japan, queen of the Pacific from 1899 to 1925 during which she cruised a total of 2,500,000 miles in 18 round voyages from Vancouver and Victoria to Manila Bay. The gallant old ship, on which most of the senior officers of the new Empress of Japan, including Capt. Samuel Robinson, served, was broken up and scrapped in Vancouver eight years ago, ending the career of a ship which made history on the Pacific. Public spirited efforts by the Vancouver Daily Province resulted in the shipwreck (right) being preserved in Stanley Park, Vancouver, between Prospect Point and Brockton Light.

Additional Locals

Harry Shilmar shipped a car of fine cattle to the Calgary market on Wednesday.

Mrs. J. R. MacKenzie and son returned home last week end after spending a few months in Ontario visiting relatives.

Duck shooting season opened on Tuesday noon. Only a few nimrods from town took in the first day's shoot.

FAIRM FOR SALE—Also straw chicken feed and cow feed for sale. Also 100 acres of short wheat for pasture. See Jacob Lantz for particulars.

Last week end A. Dubouau shipped a car load of cattle to Ontario and car of horses to Quebec. Gen. Dickson also shipped 2 cars of horses to Ontario.

Rev. and Mrs. M. Stewart entertained Mr. and Mrs. E. G. Warner and Miss Warner, of Medicine Hat, to dinner last Wednesday afternoon.

Bryson Snider, of Hespero, Alta., was in the Bowell district last week end and purchased two car loads of cattle to ship to his farm where there is plenty of feed.

The Bantford Excelsiors are again the champion lacrosse players of Canada. They defeated the Salmonbellies of New Westminster two in three games a the coast for the championship.

At the S. O. E. Grand Lodge held last week in Edmonton, Mr. Graham was elected head of the organization. H. J. Noble of Medicine Hat, was elected Grand Secretary and H. J. Cox, of Redcliff, Grand Auditor.

A what drive and social evening will be held in St. Ambrose Parish Hall on Monday, Sept. 21st. Good prizes of a useful nature, in the shape of foodstuffs, will be offered. All will be welcome.

The Ladies' Aid of Gordon Memoria will hold a fish and chip supper on Monday, Sept. 28th, from 5:30 to 8 o'clock. It will take the place of the usual anniversary supper. Tickets: 35c for adults; children 20c at the door. Everybody invited.

Town Council Holds Regular Session

Decide to Closely Scrutinize All Applications for Relief

The regular meeting of the town council was held last Monday evening with Mayor Worth in the chair and a full council.

After disposing of the minutes of the previous meeting Mr. Wyatt submitted to council an agreement for the purchase of the old truck factory to be used as a mill for the manufacture ofactory roofs. According to the document Mr. Wyatt agreed to have the plant in operation within twelve months and to have 20 employees. Mr. Wyatt also asked for water connection to the building for fire protection. The agreement was tabled in order that council might go over it carefully. In the mean time it was decided to make the necessary water connection.

E. T. Cooke and S. Moore, representing the local Oddfellows lodge, waited on council and asked for a half year's dance hall license for the I. O. F. building. The request was granted.

Solicitor Baird reported regarding a Motor Vehicle Act which was referred to him at the last meeting. He said it has upon that those holding a public bus license from the provincial government could not be charged a town license. The report was accepted and filed.

A letter was read from the Dominion government asking the co-operation of the council in fire prevention work.

In dealing with relief accounts it was decided that all orders for provisions be in keeping with that specified by the government. It appears that these specifications do not provide for bread, but rather that those receiving relief get flour and make their own bread.

It was decided to have culverts put in on Broadway between Fifth street and the Premier Bick plant for drainage; also to have several old buildings torn down and have a water trench dug on Third street on south side of Fourth avenue, at relief work.

It was further decided that the rate of regular town laborers be reduced to \$7.50 a week.

A small building on Fifth st. and a small building of Fifth st. was sold to C. Kondrat for \$30.

The usual accounts were passed for payment. There was considerable discussion when several applications for direct relief came before the council and it was the opinion of council that each application should be closely scrutinized before such relief was granted as it was felt it was quite possible for the privilege to be abused. Several applications were referred to the committee for investigation.

ALTAR SOCIETY SALE

The ladies of St. Mary's Altar Society are putting on a sale of work and home cooking on Monday, Sept. 21st in the I. O. F. Hall. Tea will be served from 2 to 5 p.m. The drawing for the cake, now on exhibition at the Drug Store, will take place at 3:30 p.m. Come and bring a friend.

Bible Translator to Speak Here Friday

Under The Auspices of The Local Bible Society

The Rev. A. W. Banfield, Fellow of the Royal Geographical Society of London, Eng., one of the pioneers of African exploration, and translator of the whole Bible in the Nape language, who has spent nearly thirty years among the wild tribes of Africa, will give one of his wonderful lectures, illustrated with lantern slides from photographs taken by himself on "Personal Experiences in Central Africa." The lecture will be given in Gordon Memorial Church on Friday evening of this week commencing at 8 o'clock. This will be a unique opportunity to hear at first hand the romance and development of the "dark continent." The occasion will be the annual meeting of the local branch of the Bible Society.

It is hoped all will co-operate in making this an event worthy of the distinguished visitor and of the great cause he represents.

Miss Margaret Smith and Mr. J. Marsh, of Drummond, and H. Sangster, returned to their home last week end.

The 12,500-ton Empress of Canada which is scheduled to sail on Sept. 22, is the latest vessel built in the largest ship yard in the world, the British Empire Shipbuilding Co., Ltd., in Glasgow, Scotland.

Total increase in railway income during the 25 years from 1886 to 1910 in the United States was \$1,100,000,000. In Canada it was \$1,100,000,000. In the United States it was \$1,100,000,000. In Canada it was \$1,100,000,000.

The annual University of Montreal tour across Canada which has been a feature of the educational life of the University for the last decade and which has been a source of interest to the Pacific Northwest for the season of 1931, is now being announced.

Vital Statistics Of Canada

Preliminary Report For Year 1930
Issued By Dominion Bureau

The Dominion Bureau of Statistics has issued today the Preliminary Report on the Vital Statistics of Canada for the year 1930.

Live births, numbered 243,361, as compared with 225,419 in 1929, and gave a rate of 24.2 per 1,000 population as against 24.1 in the preceding year.

There were 109,245 deaths in 1930, better a rate of 11.0 per 1,000 population. For 1929 a year with heavy influenza mortality, the number was 113,015 and the rate 11.6.

Diseases of the heart had a death rate in 1930 of 132 per 100,000 population as compared with 131 in 1929. The cancer death rate in 1930—the first year for which statistics of births, deaths and marriages for all Canada were collected on a uniform basis—was 81 per 100,000 as compared with 93 in 1929. Amongst the leading causes in 1930 was tuberculosis with a rate of 81, pneumonia with 66, diseases of the arteries with 66, diarrhoea and enteritis (mainly amongst infants) with 61, and influenza with 56 per 100,000 population.

Deaths of children under one year of age (exclusive of stillbirths) numbered 21,755 being a rate of 49 per 1,000 live births as compared with 21,674 deaths and a rate of 92 in the preceding year. This rate of 92 was extended to all provinces except Manitoba, where the rate for 1930 was 71.8 as compared with 70.6 in the preceding year. The provinces showing the greatest reductions were Prince Edward Island with a rate of 75.6 in 1930 as compared with 89.8 in 1929, and Alberta with a rate of 63.7 in 1930 and 77.4 in the previous year.

Natural deaths in 1930 numbered 1,404 giving a rate of 5.3 per 1,000 live births as compared with 1,341 and a rate of 5.2 in 1929.

The number of marriages in 1930 was 71,645 and the rate 7.2 per 1,000 population as against 72,884 and a rate of 7.3 in 1929, showing a decrease of 8,643 marriages, reflecting economic conditions throughout the country. The provinces showing marked decreases were Alberta and Saskatchewan.

Direct 'Phone Service

Britain To Canada

Plans To Eliminate New York Route

Under Consideration

Direct telephone service to Canada from Great Britain, instead of the present arrangement which necessitates communication via New York, is promised by the British post office authorities for the very near future. The new service will be only one item on the extended program the post office intends to put in operation. Plans are being discussed to put British subscribers in touch with almost every country in the world where there are telephones. Important telephone services to Russia, Africa, India and Japan are all being considered and plans are in hand for a circuit that would give direct communication between London and Russia.

Delegates To Geneva

Canada's delegates to the assembly of the League of Nations meeting in Geneva will be composed of Hon. Hugh Guthrie, Minister of Justice; Senator C. P. Beauchamp, Montreal; Hon. Martin Burrell, Ottawa; Mrs. H. P. Phillips, Toronto; Hon. Phillips, Quebec; and Hon. J. A. Macdonald, Vancouver. The Canadian delegation is being headed by Hon. J. A. Macdonald, Canadian ambassador to the League of Nations at Geneva. Mr. Guthrie will head the Canadian delegation.

North Bitch In Minerals

The Great Bear Lake area is likely to prove one of the most important mineral districts in the world, in the opinion of Col. C. D. MacPhee, famous northern mineral expert who arrived in Edmonton by aeroplane from Huron Bay. The major problem is one of transportation, and he will solve itself provided a sufficiently large tonnage of ore is available.

"Don't push, sir — let me have room."

"Certainly—I will take a table right away." — *Elfrida, Minister, Munich.*

W. N. U. 1934

Railways Largest Of British Enterprises

Practically Every Village In The Country Has Train Service

The railways are the largest of Great Britain's enterprises, says U. S. Commerce Bureau, and since the 1820s have been the backbone of the British Empire. The railways have been developed until now every town and almost every village in the country has a railway station. Divided into four groups: "The Great Western," London, Midland and Scottish, Southern and North Eastern, and Southern—these railways cover 20,000 miles, equivalent to more than 50,000 miles of single track.

To haul the 48,000 passenger cars and 67,000 freight cars which the railways have in constant use, it is necessary to maintain 23,000 locomotives in running order. The total capacity of the freight cars is 7,000,000 long tons, giving an average of approximately 10 tons a car; there are a few cars, however, owned by the London and North Eastern Railway, which will take a concentrated load of anything up to 120 tons.

There are 1,000 passenger stations in Great Britain, ranging from small wayside stations with perhaps four trains a day to the huge terminal.

Vancouver's New Airport

New Municipal Airport Has Facilities For Both Land and Sea Planes

Modern aviation facilities are being developed throughout Canada. The latest addition in this direction is the first unit of Vancouver's new municipal airport, which makes provision for both land and sea planes, and which was recently opened.

The airport, built at a cost of \$600,000, is a 1,000-acre site on the south side of Sea Island, which is at the mouth of the North Arm of the Fraser River. It is a 1,000-acre site on the south side of Sea Island, which is at the mouth of the North Arm of the Fraser River.

Present development has been completed, and the airport is now open for the future development of this important air terminal.

The airport is a 1,000-acre site on the south side of Sea Island, which is at the mouth of the North Arm of the Fraser River. It is a 1,000-acre site on the south side of Sea Island, which is at the mouth of the North Arm of the Fraser River.

Good Hotels Are Necessary

Important Factor In Developing Travel

Travel Says Sir Henry Thornton, Hertsford, an important factor in developing travel. Sir Henry Thornton told members of the Canadian Parliament recently in discussing conditions of the Canadian travel.

Tourist travel nets Canada a sum not less than \$200,000,000 annually, he said, and is, therefore, an important factor in the development of the country. He said that he had seen between 1923 and 1930, had new hotels and additions to old ones, \$45,000,000.

The National spent, in the same period, 116,680,000 in hotels. That these investments by the two Canadian roads have been wisely made is attested by all visitors to Canada—many of whom find the hotels operated by the railroads one of the outstanding attractions in the Dominion.

Rocking Coast Stream With Fish

Half A Million Trout Eggs Placed In Stream

Half a million trout eggs have been placed in Vancouver Island waters recently under the direction of the fisheries department, Cameron Lake, received 20,000; Englishman's River, 70,000; Big and Little Qualicum Rivers, 75,000 and 65,000, and Horse Lake, 60,000. Points north and south of Nanaimo, also, were replenished, the supplies coming from the Montana state hatchery.

California is treating down 100,000 rainbow trout eggs, and is making an effort to make the roadways look like the roadways look in the booster books.

Electric power necessary for the upkeep of a new telephone exchange in London, England, would light a city of 30,000 population.

To Protect Walrus

New Government Regulations To Guard Against Depletion Of Herds

Guarding against depletion of the walrus herds in Canada's northern waters new regulations to protect these huge marine mammals have recently been put into effect by the Canadian Government. These regulations provide that no one shall kill walrus except for use as food for himself or his dependents or his dog team, and that no Eskimo or half-breed with dependents shall kill more than seven walrus in any year and no Eskimo or half-breed without dependents, and no person of the white race, more than four. Persons other than Eskimo or half-breeds must obtain licenses issued under the authority of the Canadian Minister of Fisheries before hunting walrus, and not more than two licenses will be issued to representatives of any company at any station or port. All hunters are required to make reports to the officers of the Royal Canadian Mounted Police each year as to the number of walrus killed, their approximate value, sex, etc. The regulations also prohibit the export from the north of any walrus or part thereof, and have already carried or otherwise worked for sale in a retail way, as well as the export of the hides for commercial purposes.

Walrus grow to a substantial size. They may weigh from 1,200 to 2,000 pounds. One was caught that measured 11 feet seven inches to the end of its flipper, which was two feet six inches across. The walrus is an important source of food for the Eskimo and for his dog teams.

Are You A Perfect Guest?

Suggestions Which Week-Enders Might Wish To Remember

Not even the most invertebrate weekend can hope to find himself the perfect guest in every home. But he can be a better guest by remembering the suggestions of the author of *Mostly Men* in the sketch. They include no hints on how to behave, but on how to behave in a comparatively harmless object about the house.

The first requirement is to arrive at a clearly stated time. The guest who says he will come after lunch and then turns up before, may embarrass his hosts, even though he has told him that "any time will be all right." The hostess will also appreciate it if he will "unconsciously" and firmly after breakfast what he has proposed to do during the day. An occasional absence of the guest is to be apologized for; it only endears the guest to his hosts.

No guest should ever admit eccentricities of diet. "If you are a dyspeptic or a vegetarian, either do not be a guest or else communicate discreetly everything which your doctor has told you to poison to your system."

Don't wait for your hostess to say: "Well, you have had a busy day, and I must not keep you up any longer." Make the fatal remark yourself. To come in at 2 a.m. without making a sound display should be sufficient. To turn out all the lights without word means more merit.

Plays No Favorites

English Law Enacts Punishment Matter Who Is Offender

The Administration of Justice Act seems to be the enactment of English law papers which commit upon the sentence of one year's imprisonment, imposed on Lord Kylsail for issuing a dissenting prospectus of the great alienation company which he has organized. The idea that a year of the realm, connected by ties of blood, marriage or business association with half the titled aristocracy of England, should be held into court, tried like an obscure citizen, and then sentenced to prison, seems a difficult one for our neighbors to grasp.

If it is unusual for peers to stand in the dock, the reason is that it is unusual for peers to be implicated in the criminal code. Most of the motives that drive other people to crime are absent in the case of the rich and powerful. But they do get into the divorce courts and other unpleasant situations, and then their punishment is more, rather than less, than that of the common people. If in other parts of the world the nature of the law is the same, it is in a desire to deal gently with English people, the human nature in English judges may be a contrary bent. Up to the point in the mind of the judge who sentenced Lord Kylsail was the determination that he would not come to shrink from his duty because the prisoner before him was a man of title and powerful connections.

Prevent Forest Fires

Appeal To Tourists and Campers Who Neglect To Watch Camp Fires

The summer has been one of the hottest and driest for years, consequently the danger of forest fires has greatly increased. The forests in Canada are among the largest in extent in the world, and a country one of the most valuable of the country's natural resources. Fire devastates more of the forest area in the Dominion than any other agency combined, and the cause of many of the fires is often due to carelessness on the part of campers and tourists.

A recent statement issued by the Canadian Forestry Association makes a plea for greater care on the part of campers who neglect to put his fire entirely out may be the cause of damage amounting to many thousands of dollars and destroying the beauty of the whole countryside. The following four simple rules should be followed by everyone in the forest:

1. Build your campfire on rock or gravel, near water, and always put it dead out.
2. Never throw away lighted tobacco or matches.
3. When clearing land, build your campfire far back from standing timber. Choose good weather, and stand on guard.
4. Make sure when travelling the forest to leave it as green as when you found it. Consider always "the fellow who follows after."

Bane Of School Teachers

Chief Annoyance In Parents Who Push About Children

Parents are one of the "thorns in the flesh" for school teachers. D. H. McCurtain, head master of the Crewe Grammar School of Cheshire, England told the Canadian Club recently.

Parents who fuss, who want their children to become teachers, and who give special consideration for their children's "servitudes," are among the bane of the schoolmaster's life, he declared. The other thorns were listed as the English Board of Education, the local authorities, the union who come to distribute prizes at closing, and lastly the children themselves.

By means of X-rays, a scientist has been able to observe exactly how a human being swallows.

The Robot has begun to distribute itself. The first thing we know of is that it is being used for us and that its life will be completely ruined.

Fight Rust Scourge

Scientists Making Progress In Development Of Rust-Resistant Wheat

In the fight being waged against the rust scourge and other diseases of the wheat plant of western Canada, the scientists have made further progress at the close of another growing season. A visit to the Dominion Rust Research Laboratory at the Manitoba Agricultural College and a walk around the experimental plots is enough to show the success attained in the efforts of a staff of workers under the able supervision of Dr. W. F. Hanna, acting in charge of the rust research, and his assistant, Dr. R. W. Neely. New strains of wheat with rust resistant qualities are being developed, and in the process they are being tested for their resistance to other plant diseases, as well as for type of head and milling and baking qualities. Some excellent results are being obtained in every respect.

Numerous varieties of foreign wheats have been imported and set up in the nursery, together with the common varieties of Canadian wheat, and new strains being developed, and in this manner the scientists are building up a resistance to the disease. Special study is also being made of wheat in which, besides rust and stinking smut or bunt, considerable data has been collected in the matter of treatment and resistance to types with rust resistant qualities—Manitoba Free Press.

Direct Airway Route

Think Future Route Will Be 1,800 Mile From Wells To Lake

Planned

Instead of looking for a suitable air-route via the Azores or Bermuda, necessitating stop-overs and including 2,000 "unnecessary" miles of flying, P. E. Bowles, United States manager of the Imperial Airways, suggested that a direct route via the direct 1,800-mile Airway from Plymouth to Wells be used.

He seems to have had in mind an interview that in a few years a few airplanes will be easily capable of carrying a number of passengers over a 1,800-mile stretch in two minutes. The bodies of the latest "planes" already approach perfection and it only stands in the way of their development an engine with sufficient reserve power to maintain the same speed westward as they do eastbound across the Atlantic."

Claim Discrimination

Assert Alien Born Immigrants Have Advantage Over Those From Britain

Canadian immigration laws discriminate against British immigrants, the sons of English Benefit Society declared in a resolution passed at the Windsor convention urging the Dominion Parliament to pass legislation abolishing the present laws.

Alien born immigrants had advantages over those from Britain, said the resolution, which requested more money be made for the entry of the latter. Alien born residents who had gone through the process of naturalization might become a public charge without being subject deportation, it was claimed.

Port Arthur was chosen for next year's convention as closing sessions were held.

Trans-Canada Highways

President Of Good Roads Association Thinks Two Or Three Roads

William Findlay of Toronto, president of the Canadian Good Roads Association, was in Vancouver preaching the gospel of the good roads movement, in the country. He was concentrating on one trans-Canada highway.

Two or three routes are needed," he said. "One road must ignore communities that have just as great claim as those that will be on the route. Have not Jasper, Edmonton, and Saskatoon as much claim to be included as Banff, Calgary and Regina?"

Mr. Findlay pointed out that Canada's road problem was not a trunk highway question, but of linking up all communities with good "all weather roads."

Would Follow Gandhi

Many citizens of the United States have written to Mahatma Gandhi asking to join his model colony at Ahmedabad and to practice his principles of self-reliance, prayer and service for others, but in no case has he encouraged them to come.

The Robot has begun to distribute itself. The first thing we know of is that it is being used for us and that its life will be completely ruined.

Corn Silos And Martello Towers

Perth-Kingston District Rich In Interest And Story

Universally of interest to travellers are these places with historic associations.

Contiguous to the St. Lawrence, the door to Canada for 400 years, the Perth-Kingston mapped track is rich in historic associations. In 1689 the stronghold was destroyed but Frontenac built it up again. In 1758, a British army under Colonel John Bradstreet razed it to the ground.

By 1788 a small dockyard on Carleton Place, Ontario, was built. The Royal Military College is built on the one where Fort Henry sleeps on the hill. Along the waterfront deepening of the harbor has revealed some old wooden war-ships were launched. On Point Frederick are remains of a Martello tower, a Frederick built about 1846.

The first Premier after Confederation, who spent his early life in the St. Lawrence, died in his sleep there in Ontario's cemetery. Macdonald Park commemorates him and surrounds an old Martello tower.

Rideau Lakes system connects Ottawa with Kingston by means of the Rideau Canal, a waterway, advised by the Duke of Wellington, constructed it to Canada to provide an inland route from Montreal to Kingston. Sir John Pelly, laid the corner stone of the locks at the Ottawa end of the waterway in 1827.

It is a beautiful water trip of 136 miles. Boats of 6 feet draught can be accommodated on to 10 feet draught and 28 feet in width.

In Rideau Lakes the Thousand Islands, in the St. Lawrence repeat themselves in little, nestling bays, which crown in these waters like, so many embowered houseboats. Such are the Thousand Islands. They and Little Rideau and many others are a summer playground the fame of which has spread.

Branches of the Canadian National and Canadian Pacific Railways make access easy to any point in the region. Superlative these are Highway No. 15, which connects Ottawa and Kingston. Superlative these are Highway No. 15, which connects Ottawa and Kingston. Superlative these are Highway No. 15, which connects Ottawa and Kingston.

Alien born immigrants had advantages over those from Britain, said the resolution, which requested more money be made for the entry of the latter. Alien born residents who had gone through the process of naturalization might become a public charge without being subject deportation, it was claimed.

Port Arthur was chosen for next year's convention as closing sessions were held.

Trans-Canada Highways

President Of Good Roads Association Thinks Two Or Three Roads

William Findlay of Toronto, president of the Canadian Good Roads Association, was in Vancouver preaching the gospel of the good roads movement, in the country. He was concentrating on one trans-Canada highway.

Two or three routes are needed," he said. "One road must ignore communities that have just as great claim as those that will be on the route. Have not Jasper, Edmonton, and Saskatoon as much claim to be included as Banff, Calgary and Regina?"

Mr. Findlay pointed out that Canada's road problem was not a trunk highway question, but of linking up all communities with good "all weather roads."

They Mummy Found

A strange discovery, the mummy of a human being only 12 inches in height, was made in Hain County, England, by Lt. Snyder and E. B. Noe. The body was encased in a bag made of knitted bark. Well developed teeth indicated it as a mature person.

A petrified stone days is a man who cannot keep up the payments.

WORLD HAPPENINGS BRIEFLY TOLD

More than 26,000 bicycles were manufactured in Canada during the year 1930.

Establishment of an experimental farm near Port William is planned by the Ontario Department of Agriculture.

After years of private ownership one of Britain's most beautiful parks, the Royal Botanical Gardens, is to become public property.

General Cyrillus Cyrtin Gillian, head of the Belgian headquarters staff of the Year during the world war, is dead, aged 74.

Four bushels of oats were "swept" by a farm at Ft. Tiffin, Ohio, for a shave and haircut, worth 75 cents. The farmer still owes the barber three cents.

Seven new aeroplanes built in Russia with its suburbs are public subscription are to be added to the Soviet Air Force, but in war communist has announced.

The autumn manoeuvres of the Austrian army have been cancelled for this year in view of the economic situation, it was announced in an official communiqué issued recently.

F. C. Hall, hatcher of the Post-Gazette record flying over the globe, says he is studying navigation and plans to fly the Pacific Northwest next year. A pilot, Hall said, has not been selected.

Five-and-a-half million cars had been seen to spring when the first of June, according to reports received by the British Ministry of Agriculture. Operations are reported to be backward in Siberia.

James Birse, 27, of Valois, a journeyman of Montreal, better known as Jimmy Birse, one-time flyweight boxing champion of Canada, was killed on the Quebec highway near the capital, when his automobile was struck by a truck and turned over in a ditch.

Figures received in Saskatchewan from an authoritative source indicate that the official 1931 census figures will give the city's population as about 42,000, an increase of 67 per cent over the 1921 census, and 38 per cent over the total given in the prairie census of 1926.

Cancer Research

Commission Funds That Important Progress Has Been Made

"We found that the best results in cancer treatment were being obtained when surgical, X-ray and radio treatment were being combined, and we also found that remarkable results have been made in cancer research," said Dr. W. T. Connell, who has just returned from Europe, where he was studying the cancer question with the Ontario cancer committee appointed by the government of Ontario. A comprehensive survey of the cancer question and the treatments being used was made by the commission in both the United States and Europe.

"What the commission saw is most encouraging," said Dr. Connell. "We found from our investigations that where an organized method was made to secure for the patient the three methods of treatment, surgical, X-ray and radium, the best results were secured, and the highest percentage of recoveries was recorded."

To Launch Jewish Organization

Formation of a National party is planned by Jewish organizations in Canada. An effort to blend Jewish social and political organizations into a party of national scope and influence will be launched at a mass meeting in Toronto this fall. Delegates from organizations in Montreal, Ottawa, Winnipeg and other Canadian cities are expected to attend.

There are more than 600 varieties of wild flowers and plants in Mount Rainer National Park.

One of the suburbs of Pittsburgh has a dirt department entirely "managed" by women.

Manitoba Unemployed

Over Half Of Those Out Of Work Are Living In Winnipeg

Unemployed persons in Manitoba total 60,817, according to a careful survey of the province that has just been concluded by the provincial government with the aid of city, municipal, town and village authorities.

It is estimated that including dependents of unemployed the number of persons in the province without means of support is 105,000.

This information was obtained at the request of the Dominion government which wanted to know the number of unemployed and their location before allocating funds for relief projects. It does not include farmers who have suffered crop failures.

Hon. W. R. Chubb, Director of Unemployment relief, has sent full details on the situation to Hon. Glendon Robertson, Federal Minister of Labour.

The total of unemployed for Winnipeg and its suburbs was found to be 20,767, an increase of 2,767 over the number of unemployed in June of this year.

Arthur McNamara, assistant director of unemployment relief, estimated that the normal number of employed in a population of 270,000 in Winnipeg and suburbs is 70,000. At this number over 20,000 now are out of work.

The total number of persons in Greater Winnipeg, including unemployed and their dependents, without means of livelihood is estimated to be 50,000 at the present time.

The other figures on unemployed out to Ottawa show a total of 2,486 unemployed for St. Boniface, Brandon and Portage la Prairie; 4,033 for the towns and villages of the province; and 15,531 for the rural municipalities.

Figures on unemployed were sent to the provincial government by the secretary-treasurer of each city, town, village and municipality in the province—Manitoba Free Press.

Recipes For This Week

(By Betty Barclay)

CABBAGE SALAD UNIQUE

1/2 small cabbage, shredded.

1/2 cup raisins, chopped.

1 cup home made style pickles, chopped.

1/2 to 3/4 cup mayonnaise or cooked salad dressing.

Mix lightly together cabbage, pickles, and raisins. Dressing should be added to the mixture. Serve cold.

COCONUT TUMBLE

3 bananas, sliced.

1 cup orange juice.

1/2 cup lemon juice.

1/2 can coconut, southern style.

4 tablespoons sugar.

Combine ingredients. Pile in sherbet glasses. Chill. Serves 6.

PEACHES MARQUETTE

4 dates, finely chopped.

1/2 cup peaches, finely chopped.

1/2 cup coconut, southern style, finely chopped.

1 tablespoon sugar.

2 teaspoons lemon juice.

6 halves canned peaches.

cup peach juice.

Combine dates, peaches, coconut, and cream, mixing thoroughly. Add 1 teaspoon lemon juice. Shape into small balls and place in cavities of peach halves. Serve with peach juice to which remaining lemon juice has been added. Serves 6.

Strange Cave Dwellers

People In Tunnels Live Underground To Escape Heat

Tunisia has perhaps the strangest cave dwellers in the world. They are found south of Gabes on the fringe of the desert, and in their efforts to escape the heat they have dug dwellings for themselves in the sand.

The traveller crossing the plain of Materna comes across what appears to be wells, and is surprised to hear sounds of talking and children's laughter coming up from the earth. Looking down, he discovers in the half light a small courtyard, and tunnelled from the bottom of the well, the cavity are complete dwellings.

Access to these underground dwellings is through a slowly descending tunnel, and when the habitation proper is reached it is found to be beautifully clean and cool. Down below the surface level the temperature is reached it is found to be beautifully clean and cool. Down below the surface level the temperature is reached it is found to be beautifully clean and cool.

There are stories for their animals.

Young Poet—How do you like my poems?

Critic—Excellent. There are poems there that Shakespeare or Shelley could not have written.

Poet—It is kind of you to say so. Critic—One is about the cinema and the other about wireless.

Winnipeg Newspaper Union
By Annette

425

TAILORED CHIFFON FROCK

MAKES IT DEBUT

It has the straight dress that most women of average figure have proved by experience become them. The shawl collar is another striking point. And it's as smart and dainty made of batiste, sheer linen or organdy. And it may be of bias banding brought by the "Y" all ready to attach in the neckwear department.

It's a splendid dress for even or for travel.

Style No. 425 may be had in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44 inches bust.

Full cape silk in pastel or white, jersey, cotton mesh, shantung and lines are other ideal fabrics for its development.

Size 36 requires 3 1/2 yards 39-inch with 1/2 yard 39-inch contrasting, and 1 1/2 yards ribbon.

Price of pattern 25 cents in stamps or coin (cash is preferred). Wrap coin carefully.

Encouraging Report On Inspection Of Wheat

Grain Picked Through Department In Winnipeg Of Exceptionally High Quality

"Grain which has passed through the inspection department at Winnipeg is of exceptionally high quality. A considerable amount has graded No. 3 Hard, a great deal has gone No. 1 Northern, and some has graded No. 2 Northern on account of mixtures of durum and barley, but this year's crop, as far as it has reached the inspection department is of an exceptionally high standard."

This was the statement made to officials of the World's Grain Exhibition and Conference by J. D. Francis, chief grain inspector, Winnipeg, with reference to the quality of cars of the 1931 crop from western Canada, which have already passed through the inspection department at Winnipeg.

Francis stated that the grain thus inspected had come from many different parts of the prairie provinces and indicated that the 1931 crop is of much higher quality than expected. Despite adverse conditions from spring seeding to harvest western Canada this year has produced as good as present signs, a quality of exceptionally high average.

This year's crop therefore, was taken to indicate that many excellent samples of grain would be available for entry into the competitive classes of the World's Grain Exhibition and Conference to be held at Regina next year.

Death Of Toronto Publisher

Chas. Hurdon, Late President Of Toronto Mail & Empire, Dies In Montreal

Charles Hurdon, who built up the Hurdon pulp and paper mills and was president of the Toronto Daily Mail and its successor, the Mail and Empire, for 30 years, died at his home in Montreal recently, aged 83.

From 1863, when he had a 35 he built up his brother, John Hurdon, building a paper mill at Merriton, Ont. Mr. Hurdon was intimately connected with the pulp and paper industry of Canada until a few years ago, when his company was sold to the International Paper and Paper Company.

In 1877 he bought the Toronto Daily Mail, which was then owned by the Conservative party, and an important factor in the establishment of the national policy under Sir John Macdonald in 1878. The Empire newspaper was bought in 1891, the two forming the Toronto Mail and Empire.

Banked Savings In Canada

Couple From United States Thought It Was Safer

A dispatch from St. Thomas, Ontario, tells of a young couple from the United States who recently visited that city and who brought with them their entire savings in gold. In one of the banks at St. Thomas, the young couple admitted quite frankly that they had lost some of their savings in one bank failure in Pontiac, Mich., and had grave fears for the balance of their nest egg—hence they had brought it to Canada.

While our Canadian banks perhaps have a lot to answer for, we in Canada perhaps do not appreciate them as much as we should during periods of depression. Over on the other side of the line the number of bank failures this year has been appalling and the heavy losses among private citizens has been staggering in many centres.

Here in Canada a bank failure is a very rare thing, and anyone placing savings in a Canadian bank, Government savings office or bank companies, is practically sure of the return of his money.

Old Resident Dead

Winnipeg's 87-year-old resident, Mrs. Mary Roberts, 87, is dead. She had lived there for 87 years, going to Old Fort Garry when she said there were "hardly any white people there—just Indians and the Hudson's Bay folks." She was the mother of 13 children, one of whom fought in the First World War.

Takes Up Chinese Singing

Chinese opera singing is the latest hobby of China's deposed emperor. The "Son of Heaven" has engaged a Chinese teacher from Peking, purchased Chinese musical instruments and stage trappings, and is practicing the strange Oriental vocal style. Mei Lanfang has used with such skill that his fame has become world-wide.

Office Manager—I'm afraid you are ignoring our efficiency system, Jones. Sales Manager—Perhaps so, sir, but everybody has got to do his work some.

Hubbard: "Confound it, you know that I had and money scarce and yet you bring home more mouths to feed."—From Passing and London.

Concise and Bad Driving

Consideration For Rights Of Others New Important Traffic Intelligence

Concise is no crime, but it may have criminal consequences if a too conceited person takes the wheel of an automobile. This is the conclusion of Dr. Paul Schroder, state criminologist of Illinois, at a recent meeting of the Mid-West Safety Congress he asserted that conceited persons had automobile drivers often acquiring records as "repeaters" in motor accidents.

His theory is that consideration for the rights of others on the highway is a more important factor in safe driving than keen intelligence. The kindly motorist is said to be a safer driver than the self-righteous individual who gives his own self-centred way, letting others look out for themselves.

A study of drivers who have landed in the Illinois state penitentiary on manslaughter charges revealed that most of them were not "handicapped" mentally by low intelligence or physically by being crippled. Their prevailing defect was a tendency to be conceited and disregard the rights of others.

The commissioner of motor vehicles in Connecticut has "compulsorily" introduced a questionnaire for applicants for licenses, designed to show their character, intelligence and judgment. Package he will now add questions to indicate whether or not they are conceited. The day may come when an "only child" or the "baby of the family" may be unable to secure a driver's license until he has brought character witnesses to testify that he is modest, unselfish and duly considerate of others.

Ways Of Englishmen

Country Estate and the Outdoor Life Has Strong Appeal

London's census figures, just completed, show that in a country with a population of 32,022,818, as compared with New York's 6,981,517. This announcement, whatever despair it may cause in New York, will hardly cause a ripple in London, we imagine.

For the truth is that Londoners differ strangely from most Americans in that they take very little pride in the size of their city. Most of them, if they were asked, would probably be able to give only the roughest approximation of its numbers.

Americans delight in the bigness of their towns; and most young Americans, when they go to New York and to New York and be a part of that bigness. Few Englishmen cherish a little town, or a village, or a British town. An unfortunate Englishman's heart is in the country.

Living on his own acre is still the good life to the average Englishman. The very richest of them keep houses in town, to be sure, but they are occupied only for a month or two in the summer. As soon as the "season" is over, they are closed up and their owners go to the country to enjoy their shooting and their outdoor life.

Englishmen who are not so well off, who are forced to live in the city, go to town, live, as far as they can, in the suburbs around London. As soon as possible they desert their offices, rush by train or automobile to their villas, and their gardens, pretending that they, too, are country gentlemen.—Baltimore Sun

Two psychologists who gave a test for the average IQ of 279 dry goods salesmen found 27 were color blind.

When a man is too busy to be happy he is to be pitied.

Educational Films

Talkies Introduced To Students At Summer School

The "canned professor" has been introduced to the students of the summer school of Washington University in St. Louis in a darkened hall, he appeared on the screen. With him were the charts used in his lecture. He pointed to them as he talked. Here was an educational talk in historical sense. Given the "canned professor," the syndicated professor may follow. One man may appear simultaneously at 1,000 summer schools. The possibilities are limitless. For example, with the chain grocery store we may yet have the chain college. The possibilities are limitless. For example, with the chain grocery store we may yet have the chain college. The possibilities are limitless.

Grower Receives Bounty

Farmers Will Receive Full Five Cent Bonus

Farmers who grow wheat on land based on a crop share basis will receive the Federal five-cent-bushel bonus on wheat in exactly the same manner as actual owner producers. Premises of this was contained in a letter received at Saskatoon by Dr. William Allen, of the farm management department at the university, from Hon. Robert Weir, Minister of Agriculture.

The Federal Minister of Agriculture was answering a query as to whether the tenant farmer would receive the full five cents or only a part of the bounty, with a share going towards the owner of the land. He said the government intended to make certain the actual grower received the bounty.

Increased Postage

United States Reverts Postage On Letters To Canada And Newfoundland

Increase of postage on letters to Canada and Newfoundland from two cents an ounce to three cents, and on postcards from one cent to two cents was announced at Washington by Second Assistant Postmaster-General W. Irving Glover, to become effective September 1.

At the same time air mail postage to Canada will be increased from five cents to six for the first ounce and ten cents for each additional ounce.

Would Extend Irrigation

Extension of irrigation works over 45,000 acres is sought by United Farmers of Alberta for the Purple Springs, Grey Lake, Burdett and the Island Districts of Alberta's south.

The farmer body urged a conference of national farm organizations, Canadian Railway officials and Dominion and provincial government representatives to inaugurate the scheme.

Alberta Pool Elevators Under Public License

Alberta Pool Elevators are now operating under public license.

This permits the Pool Elevators to buy or handle any grain. Pool Elevator facilities are not restricted to the handling of Pool members' grain only.

The reputation for fairness gained by Pool Elevators should be an inducement for all grain growers to patronize these elevators.

Any person delivering grain to Pool Elevators may sell his grain in any way he selects and at any time desired.
